Internship title:
Interaction Designer

About the company
Accenture is a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. Combining unmatched experience and specialized skills across more than 40 industries and all business functions—underpinned by the world's largest delivery network—Accenture works at the intersection of business and technology to help clients improve their performance and create sustainable value for their stakeholders.

We are the only company with the ability to integrate these capabilities, end-to-end, tailored to specific industries, and we're looking for talented people like you to join us. With more than 384,000 people serving clients in more than 120 countries, we drive innovation to improve the way the world works and lives.

Internship job scope and responsibilities description
- Create systems and frameworks to organize information and help users understand how solution or service will work and behave over time.
- Employ user centered design processes, conduct ethnographic research and usability testing to identify user needs.
- Integrate and address user needs and balance them against business, brand and technical goals and needs.
- Communicate solutions, usually in the form of models, wireframes, documentation, or prototypes across platforms.

Pre-requisite from candidate
Digital Marketing, Interaction design platform, customer experience design

Estimated time frame/period
Rolling – All year round with minimum commitment of 12 weeks
