

Our society has changed dramatically with the evolution of technology. Access to education, medicine, industry, transportation and many other areas has improved due to modern day technology.

Technology is also an enabler to do good. For example, two young Singaporeans created the [Treasure](#) app which helps to cut food waste, by listing nine hotels that allow users to pack home food from their buffet restaurants up to an hour before closing time for \$10 a box.

With Singapore becoming a Smart Nation, the usage of technology to simplify processes or make things more efficient is encouraged. How will you use technology for good?

Be informed. Be inspired. Be the change.

ARTICLES & UPDATES

Mini Trashpresso turns waste into products

Recycling right is not difficult or time-consuming. Miniwiz, headquartered in Singapore, will be launching the mini Trashpresso - a mobile recycling plant that converts plastic waste into consumer products such as coasters and candleholders. Read [more...](#)

LTA awarded for inclusive bus trip app

A mobile application named Mobility Assistance for the Visually Impaired and Selected Users (Mavis) that alerts bus drivers to passengers with special needs who are boarding or alighting, has won the Land Transport Authority (LTA) an international prize. Read [more...](#)

Food tech start-up wins green challenge

Singapore-registered Sophie's Kitchen clinched \$1 million in funding for its technology to produce food-grade microalgae protein as an alternative to animal-and plant-based protein. Over 90% of the water used in the production of this protein can also be recycled. Read [more...](#)

PUB plans massive floating solar panel system

In order to strengthen Singapore's defences against climate change and build economic sustainability, PUB will plan the nation's first large-scale floating system of solar panels to power water treatment processes. It will be set up in Tengeh Reservoir by 2021. Read [more...](#)

Student Community Engagement aims to empower students to make a difference through positive social actions. We believe that young people have a critical role to play in building a better world for themselves and the community.

We provide students access to opportunities such as grants for their ground-up initiatives and social entrepreneurship efforts, internships at non-profit organisations, and training programmes to develop community leadership skills.
