

The COVID-19 outbreak has directly affected all our lives. It is a potent combination of life and death concerns, as well as economic ones. The concern goes beyond financial resources, to whether society can remain cohesive as jobs, and even food and essentials, become limited.

Even as this pandemic is unfolding daily at an alarming rate, there are still angels among us who go the extra mile to help and support those in need. Companies are also doing their best to help their employees remain employable, and Governments are providing cash payouts to citizens in hope that it will tide them through this difficult time even as the economy is badly affected.

It is in these trying times that we must learn to be resilient and get through this together. *#StayHome* and we can do it!

*Be informed. Be inspired. Be the change.*

## **Project Stable Staples**

In partnership with BLESS, this project is a ground-up initiative to seek donations for fortnightly grocery vouchers to rental communities who suffer from COVID-related income loss. Click [here](#) to read more and donate.

Student Community Engagement aims to empower students to make a difference through positive social actions. We believe that young people have a critical role to play in building a better world for themselves and the community.

We provide students access to opportunities such as grants for their ground-up initiatives and social entrepreneurship efforts, internships at non-profit organisations, and training programmes to develop community leadership skills.
