Copyright Questions NTU students and researchers asked

- Can I reuse a diagram from my own published journal article in my thesis?
- Can I add some music as background for a video that I'm making for a student project?
- Can I upload my earlier published journal article in ResearchGate?
- Can I include images which I screen captured from online newspapers for a journal paper that I'm writing?
- What is Creative Commons licensing?

An NTU Digital Project
Singapore Literature in English :
an annotated bibliography

Compiler and Editor

Professor Koh Tai Ann
College of Humanities, Arts and Social
Sciences
Nanyang Technological University

What It Was and How It Began

Singapore Literature in English: an Annotated Bibliography, is the first annotated and most comprehensive bibliography of the entire body of "Singapore Literature in English". The print edition, published in 2008, was originally put online as a 'resource guide' on the National Library's website with a link provided to it on NTU Library's website. However, in this static form, it could not be updated and expanded. (For a detailed account, see How the Annotated Bibliography Came About)

What It is Now

In 2013, the *Annotated Bibliography* became the first of NTU Library's Digital Projects which aim to make the research of NTU faculty instantly and conveniently available to the university community, and to a national and global readership. It is also the first such digital bibliography of the entire body of a nation's literature in an official language in Singapore, if not also unprecedented in Southeast Asia. The *Annotated*
